

Dolbey's Fusion Forum Use's Conference and Training Workshop, held every 2 years, offers future or current users of the Fusion Suite of products, the opportunity to assemble for networking and education with a chance to also earn valuable CE credits through AHIMA and AHDI.

This year Dolbey will hold the 2010 Fusion Forum in conjunction with AHIMA to assist those hospitals whose budgets have been constricted due to budget cuts. This allows hospitals to be able to experience two amazing conferences while only paying for the travel expenses of one!

For those users that have attended this conference in the past, this year's Fusion Forum will have a greater emphasis on training and networking. For those users that are new to the Fusion Forum this is the perfect opportunity to meet others that are facing the same issues that you are – HITECH, RAC, increased demand for productivity and turnaround times. This is a perfect opportunity to have access to not only your peers but, you will also have access to Dolbey's Technicians, Developers, and Trainers. Discuss solutions that others are implementing and learn from each other at the Dolbey Fusion Forum this September We hope to see you there!

Since 1914, Dolbey has delivered timely solutions with an emphasis on customer satisfaction. Our expert solutions, coupled with fast, local support, available in most North American cities makes Dolbey the company to turn to for your fast changing requirements.
